- I have been informed of the treatment plan and associated fees. I agree to be responsible for all charges for dental services and materials not paid by my dental benefit plan, unless prohibited by law, or the treating dentist or dental practice has a contractual agreement with my plan promising all or a portion of such charges. To the extent permitted by law, I consent to your use and disclosure of my protected health information to carry out payment activities in connection with this claim.

*Many dental insurance carriers state that a procedure will be covered at "100%".

However, your reimbursement may be *less* than indicated because of :

- plan limitations
- fee schedule allowances
- alternate (reduced) benefits

Some dental services that may **not** be covered by your dental insurance:

- Preventive treatments that may **not** be covered: Sealants Fluoride treatments
- Composite-Resin restorations (Tooth Colored Fillings) may **not** be covered
Dr. Heilig currently uses Composite-Resin-type restorations and does **not** restore teeth with Amalgam (Silver Fillings)

The benefits that your plan pays are determined by the particular plan you have chosen.

If you have any questions regarding your dental insurance, we ask that you contact your employer or your insurance company regarding the specifics and details of your plan.
